## Part 1 (Adjustments Budget)

---

### 1.1 Mayoral report overview

---

The country is slowly moving out of the greatest recession since the 1930's, as indicated by the Minister of Finance on 27 October 2010 in his second Budget Policy Statement to Parliament. There are promising signs of economic recovery indicated by the strengthening of the rand, the decrease in the repo rate as well as the positive trend recorded in the motor trade and manufacturing industry.

The leadership of the city had a significant role to play in managing the effect of the economic slowdown while remaining focussed on effective services delivery. The changed financial outlook of the CoT indicates that all efforts have paid off. The negative financial outlook (7 July 2009) was reversed back to stable by Moody's on 30 November 2010. Moody's indicated that the outlook change reflects the effectiveness of the city's efforts towards fiscal recovery, which have resulted in an improved liquidity position and cash-flows after the fiscal challenges experienced in 2008/09. Although the cash-flow position remains under pressure, the CoT's cash reserves adequately cover short-term obligations, thus supporting the high short-term rating assigned on the South African national scale. The CoT has furthermore achieved an unqualified report on its financial statements. The positive change in the grading improved the liquidity as well as the viewpoint of banks towards the CoT's financial position. It is imperative that the CoT continues to build strongly on this sound financial base that was created by adapting to changed circumstances.

It is therefore clear that the CoT's financial recovery is on track, although prudent financial management requires certain constraints regarding expenditure to ensure sound financial management and sustainability over the medium- to long-term. It is however imperative that the CoT continues to build strongly on this sound financial base.

Another strategy to ensure long-term sustainability and viability is to provide for cash-backing through separate investments (including interest earned on these investments) earmarked for specific future indefinite liabilities that may amongst other provide funding for capital reserves and provisions and repayment of unspent conditional grants. A phased-in approach will be followed and managed according to mid-year and year-end available resources.

This strategy as well as the uptake of long-term loans were modelled into the Long-term Financial Model (LTFM) to ensure the sustainability of the City over the medium- to long-term. The strategy is informed by relevant GRAP accounting standards, sections 18 and 19 of the MFMA, National Treasury Circular 48 and National Treasury regulations and budget formats (ie funding compliance table). The funding compliance test is paramount to financial sustainability and forms an integral part of the long-term financial strategy.

It is imperative that strategic units/departments spent external funds (grant funding) received on a project first before internal funds provided by the CoT in order to prevent own funds generated from revenue being used as bridging finance affecting the cash-flow position negatively.

The compilation of the 2010/11 Adjustments Budget posed many challenges and obstacles, owing to limited financial resources. Restrained expenditure was and is still encouraged to ensure that spending remains within the affordability parameters of the City's finances, to ensure that the City continues to deliver on its core mandate and achieve its developmental goals.

Owing to prudent financial management little capacity for additional funding existed, and priority community issues will have to be reprioritised within the strategic unit/department's allocated budget. Services will have to be rendered responsibly with innovation and determination, as expected from responsible municipal officials

in terms of the MFMA. It should be noted that funds management was implemented with effect from 16 July 2009 to ensure that no overspending will occur.

The adjustments in the previous financial year (2009/10 Adjustments Budget), can be summarised by a decrease in expenditure of R653,8 million on the operating budget which assisted with the cash-flow challenge that was experienced. The 2009/10 Adjustments Budget informed the compilation of a streamlined 2010/11 MTREF. With the compilation of the 2010/11 Adjustments Budget, the CoT has started the slow claw-back as R310,8 million was allocated towards operational issues (increase in expenditure) compared to the reduction in expenditure that was implemented and approved in the 2009/10 adjustments budget.

Some changes to the current approved Budget Policy are proposed mainly to manage expenditure levels and to fast track urgent and high priority capital projects.

The budget principles that informed the compilation of the 2010/11 Adjustments Budget is in line with Section 28(2)(b) to (g) of the MFMA and the following additional principles needs to be highlighted:

- The inclusion of additional funding requests are subject to:
  - Any savings identified corporately;
  - Additional revenue generation;
  - Reprioritization of services and priorities; and
  - Value-for-money, benefits to the CoT and affordability.
- It should be noted that there is unlimited needs but limited resources and affordability within the context of sustainability must be considered and maintained.
- Strategic Units/ Departments need to concentrate on core functions, proactively review the operational budget and identify savings that can be affected if necessary to assist with the CoT cash flow position.
- Consideration needs to be given to the business plans including targets and objectives.
- All proposed capital adjustments must be accompanied by revised cash flow and milestone projections to ensure timely submission to the BPME Office for the compilation of the revised 2010/11 SDBIP.
- Submissions which relate to external funding sources must be accompanied by proof of confirmation from the relevant transferring department or institution.

A process of data purification and verification, based on performance trends over the past two to three financial years, was undertaken to create funding capacity. If no expenditure or expenditure less than the budgeted amount realised over this period on a specific General Ledger (Account), the budgeted amount was removed or reduced. If the expenditure trend indicated an over-expenditure, the budget amount was aligned to the estimated expenditure. This process was also applied to the collection trend of revenue over the mentioned period. If an under collection was indicated on a specific General Ledger (Account), the budget was decreased according to the actual revenue collected or the budget was increased if the revenue indicated such a trend.

The movements requested by strategic units/departments had to adhere to the balanced budget requirement and was affected to ensure value for money and best practise. It is imperative to ensure that the correct amount is budgeted at the correct General Ledger (Account) owing to the implementation of funds management, as mentioned above. Furthermore, strategic units/departments were allowed to motivate additional requests of which only R170,2 million on the operating budget could be funded owing to financial constraints. An amount of R3,0 million was included in the capital budget for the upgrading of the Sammy

Marks Council Chambers in order to accommodate additional councillors as a result of the proclamation of the disestablishment of Metswedeng District Municipality, Nokeng Tsa Taemane Local Municipality and Kungwini Local Municipality and the establishment of the new CoT from 1 July 2011. Some of the additional requests that could be funded relates mainly to the following:

- Lease of vehicles – R1 6 051 194
- Repairs and maintenance – R8 817 000
- Protective clothing – R1 770 277
- Watchman Services – R34 372 646
- Special projects – R2 500 000
- Professional services – R2 000 000
- Customer survey – R1 600 000
- Credit card charges – R2 361 419
- Collection fees – R20 500 000
- Service providers (Housing Company Tshwane) – R13 500 000
- Special events – R800 000
- Reticulation electricity – R2 000 000
- Heating fuel – R2 000 000
- Electricity main supply – R1 000 000

The following necessary changes (based on performance trends, contractual obligations, implementation of aggressive credit control measures, re-evaluation and purification of the asset register, etc) were also affected:

- Depreciation decrease – R167 195 433 (Primary cost)
- Interest earned on outstanding debtors decrease – R76 761 648
- Increase in revenue (Refund: Motor Vehicle Licenses) – R23 000 000
- Watchman Services Increase – R34 372 646
- Water fees increase – R20 000 000
- Sanitation increase – R26 000 000
- Provision for Bad Debt increase – R96 414 433.

The following adjustments were affected with regards to operating grants and subsidies:

- R150 000 was included for the establishment of the essential oils project;
- R843 147 was included for the Finance Management Grant for funds not spent in the 2009/10 financial year;
- R11 479 344 was included for the Restructuring Grant for funds not spent in the 2009/10 financial year;
- R35 825 was received from Delft for the Tshwane HIV and AIDS Youth Project;
- R1 842 602 was received from the Department of Local Government for HIV/AIDS;
- An accreditation grant for Housing and Sustainable Development to the amount of R2 373 057 was included:
  - Operational Grants and Donations (R1 169 096); and
  - Project 712757: Capital Funded from Operating (R1 203 961).
- R30 000 was included for the LGSETA Merit Award;
- R9 851 873 was included for the Loftus Upgrade 2010;
- R21 376 508 was received for the 2010 Host Cities;
- R3 058 000 was included for the Library Grant which was rolled over from the 2009/10 financial year; and
- R179 658 002 was included as a roll over from the 2009/10 financial year for the Public Transport Infrastructure Grant.

The Capital Budget was adjusted downwards with R770,7 million and amounts to R2 424,2 million (approved Budget R3 194,97 million). The following adjustments were affected with regard to Internal funded (Council funded) projects (nett change of R10,5 million):

- Allocation for extension of Council Chamber: R3,0 million.
- Movements between Strategic Unit/Department
  - Several projects, to the total amount of R38 351 000 were transferred from the City Planning and Economic Development Department to the Office of the Executive Mayor, Chief Whip, Speaker and City Manager, owing to the transfer of the Regions Capital Budget to the Office of the Service Delivery Coordinator, in line with the ASD structure.
  - Projects to the amount of R18 920 000 under the Fresh-produce Market were transferred to the Agriculture and Environmental Management Department in line with the ASD structure.
  - R75,6 million was transferred from the Roads and Stormwater Division to the Transport Division in order to fund capital expenditure at Wonderboom Airport.
- R160 000 was transferred to the operating budget for the purchases of non-capital items with a value less than R10 000.

It needs to be noted that in terms of the MFMA funds allocated to the CoT for capital projects cannot be spent before it has been included as revenue in the operating budget. The following adjustments were affected with regards to capital grants and subsidies (nett change of R760,1 million):

- Provincial Transport Infrastructure Systems Grant (PTIS) was substantially reduced from R743 011 420 to R61 168 580. The BRT project will not continue in terms of capital works in the current financial year. A portion of the allocated funding has been removed from the capital budget and allocated to the operating budget for operational related expenditure.
- National Electrification Programme. The electricity for all project which is funded by DoE was decreased with R10,0 million to R78,0 million. Funding has been deferred to the 2011/12 financial year .
- Expanded Public Works Programme (EPWP). The allocated funding of R8 357 000 for the EPWP was removed.
- The Government Housing Programme was increased with R1,2 million.

The report accompanying the 2010/11 Adjustments Budget, indicate in detail the reasons for the adjustments budget, highlights and motivates the adjustments which culminates in the recommendations, ensure compliance to NT regulations, which all assist in overcoming hurdles and pave the road to sustainable service delivery over the medium-term.

The necessary submissions will be made to Council to consider amendments to the 2010/11 SDBIP, should the 2010/11 Adjustments Budget affect the corporate service delivery targets. Any revision of the service delivery plan will be made public timeously (Section 54 of the MFMA).

To ensure sound financial management and sustainability over the medium to long term intervention initiatives and strategies that was implemented during the 2009/10 financial year will have to continue in the 2010/11 financial year. These intervention initiatives will assist in the implementation of the CoT strategy towards reserves cash backing. Continuing with the intervention initiatives and determination to be successful in overcoming the financial challenges, the CoT is aiming to achieve a positive bank balance of approximately R150,0 million on 30 June 2011 compared to the positive bank balance of R80,1 on 30 June 2010.

Taking the above into consideration as well as other proposals and recommendations to ensure best practice, legislative compliance and ultimate sustainability within the context of affordability it is recommended that the 2010/11 Adjustment Budget be approved.

## 1.2 Resolutions

---

1. That in terms of Section 28(2) of the Municipal Finance Management Act, 2003 (Act 56 of 2003) the proposed 2010/11 Adjustments Budget be approved as set out in the following tables as contained in Annexure A:
  - 1.1 Adjustments Budget Summary.
  - 1.2 Adjustments Budget Financial Performance (revenue and expenditure by municipal vote).
  - 1.3 Adjustments Budget Financial Performance (revenue and expenditure by standard classification).
  - 1.4 Adjustments Budget Financial Performance (revenue by source and expenditure by type).
  - 1.5 Adjustments Capital Expenditure Budget by municipal vote and funding.
2. That the financial position, cash-flow, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are adopted as set out in the following tables as contained in Annexure A:
  - 2.1 Adjustments Budget Financial Position.
  - 2.2 Adjustments Budget Cash-flows.
  - 2.3 Cash backed reserves/accumulated surplus reconciliation.
  - 2.4 Asset management.
  - 2.5 Basic service delivery measurement.
3. That the capital tables and schedules set out in 1 and 2 above be amended and approved with the re-prioritisation amount of R39,3 million (13 January 2010) as indicated in the report.
4. That the consolidated Adjustments Budget that includes the financial impact of all municipal entities as set out in Annexure A be noted.
5. That in terms of external funded projects no contracts will be allowed to commence with before funding or commitments have been received from the funding parties and contracts between these parties and the CoT have been signed.
6. That the Budget Policy approved by Council on 27 May 2010 be replaced with the amended Budget Policy (Annexure E).
7. That an investigation be conducted with regards to the low generation of revenue in terms of traffic fines and that the Strategic Executive Director: Community Safety submit a report to Council in this regard.
8. That the cash flow management intervention initiatives and strategy, approved by the Mayoral Committee on 7 October 2009, remain in force for the 2010/11 financial year.

### 1.3 Executive Summary

---

In terms of Section 72 of the MFMA the performance of a municipality must be reviewed before 25 January of each financial year and as part of the review recommend whether an adjustment budget is necessary and recommend revised projections and expenditure to the extent that it may be necessary.

Although the recovery from the recession is glimmering on the horizon, the road will be steep and to bridge obstacles sustainably, another conservative Adjustments Budget has been placed on the table. In general, the aim with the compilation of the 2010/11 Adjustments Budget, is to further prioritise and implement conservative expenditure strategies, following the belt tightening measures included in the 2009/10 Adjustments Budget, to recover from the impact of the economic slump on the city's finances. Reprioritising and down scaling of, ie non-core functions will have to continue in order to uphold service delivery towards core functions on a sustainable level. Therefore only slight changes were affected in the 2010/11 Adjustments Budget, showing the commitment of the city to emerge from the woods. The approved cash-flow management intervention initiatives will therefore also have to continue for the remainder of the 2010/11 financial year.

The Adjustments Budget furthermore ensures that the City continues to deliver on its core mandate, achieve its developmental goals and entails prioritising all available resources towards essential services and contractual financial commitments.

The refinement of the proposed 2010/11 Adjustments Budget, together with its slow claw-back on previous cut-backs, will essentially be modelled into the broader context of the city's Long-term Financial Model, informing the 2011/12 Medium-term Revenue and Expenditure Framework.

The additional requests received from strategic units/departments which could be funded and other necessary changes (based on performance trends, contractual obligations, implementation of aggressive credit control measures, re-evaluation and purification of the asset register, etc) as well as the adjustments affected with regard to internal and external funding is available in the Mayoral report overview.

It needs to be noted that the Provision for Bad debt was increased with an amount of R96,4 million to be aligned with the increase in consumer debtors. The strategy towards the writing off of irrecoverable debt will have to be reconsidered and it is proposed that irrecoverable debt be written-off each financial year to ensure the asset value is not overstated in the balance sheet. Furthermore Watchman Services was centralised at the Community Safety Department as they are the custodians of this service and to ensure efficiency gains and value for money. Depreciation was decreased with R167,2 million (primary cost) R155,3 million (primary cost less primary cost of distribution accounts) owing to the re-evaluation and purification of the asset register. Interest Earned on outstanding debtors decreased with R76,8 million owing to the implementation of the incentive scheme, aggressive credit control measures and a reduction in the prime interest rate.

The following two tables reflect the approved 2010/11 MTREF, the proposed 2010/11 Adjustments Budget (revenue by source and expenditure by vote) and the subsequent outer years:

1. Surplus includes capital government grants which are appropriated to the capital expenditure budget.					
2. Includes depreciation charges for externally funded assets offset by transfer from reserve accounts.					

The total adjusted operating expenditure amounts to R15 138,9 million, which amounts to an increase of R307,2 million (2,1%) compared to the original approved amount (R14 831,7 million). The 2010/11 adjusted surplus amounts to R808,6 million that is R737,0 million lower compared to the original approved surplus of R1 545,6 million.

Contrary to the previous two financial years the approved capital budget was not reduced in terms of internal funding but was re-aligned to ensure that maximum performance is achieved. However the budget was reduced with an amount of R770,7 million mainly relating to external funding. In order to comply with the National Treasury reporting regulations pertaining to the Adjustments to the Capital Budget, it necessitated the revision of the cash-flow expenditure projections for the remainder of the financial year. Transfers between capital projects were also affected.

The total adjusted capital budget amounts to R2 424,3 million, which amounts to a decrease of R770,7 million (24,1%) when compared to the approved budget amount of R3 195,0 million. It should be noted that the outer years have not been amended.

The detail of the changes made to the Capital Budget per strategic unit/department is contained in Table SB19.

The increase in the capital budget of the Office of the Executive Mayor, Chief Whip, Speaker and City Manager, and a corresponding decrease in the City Planning and Economic Development Department is owing to the transfer of the Regions capital budget from the City Planning and Economic Development Department to the Office of the Service Delivery Coordinator which is in line with the new ASD structure.

Projects resorting under the Fresh Produce Market were also transferred to the Agriculture and Environmental Management Department in line with the approved ASD structure.

An amount of R75,6 million was also transferred from the Roads and Stormwater Division to the Transport Division in order to fund capital expenditure at the Wonderboom Airport (internal funds transfer). No capital budget was approved for the Wonderboom airport in the approved MTREF

The following summarises the adjusted SDBIP performance objectives:

#### Public Works: Roads and Stormwater

It seems as if the targets for pedestrian walkways and bicycle paths were added to the targets for roads to arrive at the figures as quoted in the original approved 2010/11 Capital Budget, therefore the targets are adjusted to correlate to the particular sub-function. The Sub-function Roads Maintained should be re-named to Roads Rehabilitated, as road maintenance are funded from operating expenditure and the rehabilitation of roads are funded from capital expenditure.

The requirements by the Department of Water Affairs that Water Use Licences (WUL) have to be acquired for all storm water projects, have impacted negatively on these projects, and therefore was there a substantial reduction in targets for these projects in the 2010/11 financial year.

#### Public Works: Water and Sanitation

There is an increase of 15 000 meters on the water network pipeline (Sub-function: Maintenance of Water - Upgrade and replacement of internal water pipelines). All other indicators are not affected by these changes. The adjustments were affected to cover the shortfalls in funding allocations, land expropriations, professional fees, etc.

#### Public Works: Energy and Electricity

##### 1. Sub-function - Provide higher levels of electricity

Houses electrified to eradicate backlogs

Target reduced from 12 000 to 6 000 households. The electrification of low costs houses is done in conjunction with the Housing Department. The target is based on the top structure houses made available by the Housing Department for electrification.

##### 2. Sub-function - New Connections

Completed and occupied houses electrified to cater for growth

Target increased from 600 to 2 600 households. The KPI is entirely application driven and depends on the customers applying for connections. The target is set based on the previous history. The effects of the recession also reduced the number of applications for connections. The 2009/10 target was also reduced owing to the budget cuts on capital projects implemented by the City.

##### 3. Sub-function - Access to alternative energy sources

Areas provided with access to alternative energy sources from departmental interventions

Target increased from 1 500 to 2 700 households. In 2008 the target was very low as it was still a pilot project. In 2009 the rollout continued. Currently there is an allocation of R30 million received from the Department of Energy specifically for this project and the City Manager has already signed the agreement.

##### 4. Sub-function - Generate electricity to support the load demand

Net kWh generated as a proportion of the total KWH demanded

New target: 843 600 100 KWH to be generated. Own Power Station generations contributes an estimated 9% of the total City electricity demand, if they are operated on full capacity. Their contribution will remain almost constant because the capacity cannot be increased, but with the rising cost of electricity through Eskom purchases the power stations will absorb the impact of rising electricity cost, especially during the high demand season and load shedding.

5. Sub-function - Distribute electricity according to demand

kWh purchased from Eskom

The City is growing each year where new residential and commercial customers are connected to the electricity network; as a result the consumption (demand) of electricity increases kWh purchase will linearly grow each year, which will be reflecting City's growth and the expected purchases from Eskom will increase.

6. Sub-function - Provide public lighting

New street lights as per ward

Target increased from 2 000 to 2 500 per ward. The target has always been exceeded on the streetlights; however the target for the current three year cycle has been reduced owing to non allocation of MIG funds.

7. Sub-function - Provide public lighting

High masts lights per ward

The actual for high masts was low during 2008/09 and 2009/10 because of the challenges with tenders. Currently the tender is in place hence the target for the current three year cycle has increased to 30 high masts.

8. Sub-function - Maintain electricity infrastructure

Electricity repairs and maintenance

Unchanged target.

## PART 2 (SUPPORTING DOCUMENTATION)

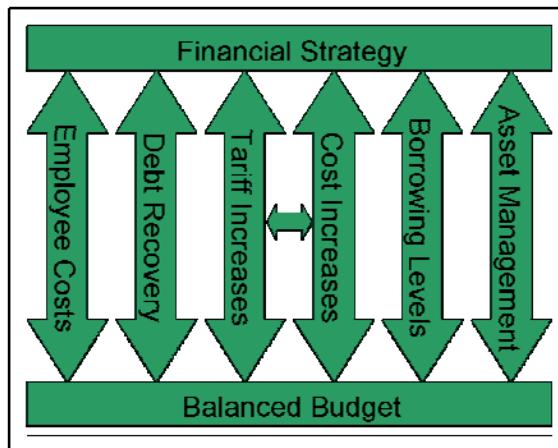

---

### 2.1 Adjustments to budget assumptions

---

The CoT utilises the Long-term Financial Model (LTFM) to inform the compilation of the Medium-term Revenue and Expenditure Framework. This model takes into consideration ie economic indicators, growth factors, guidelines from National Departments and Councils, strategic and policy direction to ensure sustainability and goal orientated service delivery.

The following are some of the major factors that are taken into consideration, and which primarily determines the financial approach:

The abovementioned budget assumptions ultimately influence the budget and changes in these assumptions can affect the adjustments budget to be adopted by Council.

However the budget assumptions presented in the 2010/11 MTREF remains unchanged.

## 2.2 Adjustments to budget funding

---

In terms of Section 18 of the MFMA an annual budget may only be funded from realistically anticipated revenues to be collected, cash-backed accumulated funds from previous year's surpluses and borrowed funds for funding of the capital budget. Furthermore the revenue projections must be realistic taking into account projected revenue for the current year and actual revenue collected in the previous financial year. These requirements as well as other budget principles guided the 2010/11 Adjustments Budget process.

To create funding capacity with regard to operating expenditure, a process of data purification and verification, based on performance trends over the past two to three financial years, was undertaken. If no expenditure or expenditure less than the budgeted amount realised over this period on a specific General Ledger (Account), the budgeted amount was removed or reduced. If the expenditure trend indicated over-expenditure, the budget amount was aligned to the estimated expenditure. This process was also applied to the collection trend of revenue over the mentioned period. If an under collection was indicated on a specific General Ledger (Account), the budget was decreased according to the actual revenue collected or the budget was increased if the revenue indicated such a trend.

The capital budget funded from loans for the 2009/10 financial year amounted to R1 081,0 million. An amount of R1 000,0 million was included in the MTREF for the capital budget funded from loans for the 2010/11 financial year. Of the R1 081,0 million for the 2009/10 financial year, only R720,0 million was taken up. The outstanding loan amount of R361,0 million for the 2009/10 financial year was only taken up during November 2010, and the total loan amount for the 2010/11 financial year was therefore increased from R1 000,0 million to R1 361,0 million in the 2010/11 Adjustments budget.

It should be emphasised that the purpose of taking up the proposed loan amount of R1 361,0 million in the 2010/11 financial year is not to fund additional capital expenditure but to fund the current capital budget, as own funds generated from revenue were utilised as bridging finance to fund the capital budget during the 2009/10 financial year.

The following table indicates the breakdown of the capital budget per funding source ensuring that the adjusted capital budget remains funded:

FUNDING SOURCES	Budget 2010/11	Adjusted Budget 2010/11	%	Adjusted Budget 2011/12	%	Adjusted Budget 2012/13	%

To ensure sound financial management and sustainability over the medium to long term the belt tightening intervention initiatives that was implemented during the 2009/10 financial year will have to continue in the 2010/11 financial year. These intervention initiatives will assist in the implementation of the CoT strategy towards reserves cash backing. Continuing with the intervention initiatives and the determination to be successful in overcoming the financial challenges, the CoT is aiming to achieve a positive bank balance of approximately R150,0 million on 30 June 2011 compared to the positive bank balance of R80,1 million on 30 June 2010.

The purpose of a strategy towards cash backing is to have separate investments (including interest earned on these investments) earmarked for specific future indefinite liabilities that may amongst other provide funding

for capital reserves and provisions and repayment of conditional grants received but not spent. A phased-in approach should be followed and managed according to mid-year and year-end available resources.

Cash received from operating activities are utilised to provide working capital and to temporarily fund capital expenditure in advance of external loan draw-downs. Operational cash-flow deficits and surpluses are forecasted and managed on a daily basis within available cash resources and banking facilities.

Taking the inflation rate and the budgeted figures for 2010/11, 2011/12 and 2012/13 into account the cash backing needs amount to R321,2 million, R548,9 million and R424,0 million respectively. The funding compliance test is paramount to financial sustainability (refer Table B8 – Cash backed reserves/accumulated surplus reconciliation).

The outcome of the LTFM indicates a cash-flow surplus of R322,4 million, R306,1 million and R477,1 million for the 2010/11, 2011/12 and 2012/13 financial years respectively (refer Table B7 – Budgeted Cash-flow).

The following remarks regarding adjustments/no adjustments need to be noted:

- The rate of revenue collection currently amounts to 94% and owing to the aggressive collection strategies (initiatives) that the CoT has embarked on the rate will only be reconsidered with the compilation of the 2011/12 MTREF.
- Owing to a change in the financial instruments ie zero coupons the investments was reduced from R386,7 million to R380,3 million during the adjustments budget (refer Table B6 – Budgeted Financial Position)
- Public contributions and donations was increased with R39,4 million.
- Grants-in-aid (Property Rates) was aligned to performance trends over the past three financial years and therefore decreased by R4,2 million (refer Table B4 – Budgeted Financial Performance).
- Gains and loss on disposal of Property, Plant and Equipment was reduced with R4,9 million and R5,0 million respectively (refer Table B4 – Budgeted Financial Performance).
- The CoT currently has no contracts awarded that impose financial obligations on the municipality beyond the three years covered in the 2010/11 adjusted MTREF.
- The loan amount of R1,0 billion approved for the 2010/11 MTREF remains.

## 2.3 Adjustments to expenditure on allocations and grant programmes

---

The following adjustments were affected with regards to operating grants and subsidies:

- A grant to the amount of R150 000 was included for the establishment of the essential oils project.
- An amount of R843 147 was included in the Adjustments Budget for the Finance Management Grant for funds not spent in the 2009/10 financial year.
- An amount of R11 479 344 was included in the Adjustments Budget for the Restructuring Grant for funds not spent in the 2009/10 financial year.
- A grant to the amount of R35 825 was received from Delft for the Tshwane HIV and AIDS Youth Project and was included in the 2010/11 Adjustments Budget.
- An accreditation grant to the amount of R2 373 057 were included against the following General Ledger Account and Capital Project:
  - Operational Grants and Donations (R1 169 096); and
  - Project 712757: Capital Funded from Operating (R1 203 961).
- The following operational grants were included in the 2010/11 Adjustments Budget:
  - LGSETA Merit Award (R30 000);
  - Loftus Upgrade 2010 (R9 851 873); and 2010 Host Cities (R10 476 508 + R10 900 000 = R21 376 508).
- The Strategic Unit/ Department received approval from the Department of Sport, Arts, Culture and Recreation to roll over the Library Grant to the amount of R3 058 000 from the 2009/10 to the 2010/11 financial year. In view of the approval the amount of R3 058 000 was included in the adjustments budget.
- An amount of R179 658 002 was included as a roll over from the 2009/10 financial year for the Public Transport Infrastructure Grant.

The following adjustments were affected with regards to capital grants and subsidies:

- Public Transport Infrastructure Systems Grant (PTIS)

The PTIS was substantially reduced from R743 011 420 to R61 168 580. The BRT project will not continue in terms of capital works in the current financial year. A portion of the allocated funding has been removed from the capital budget and allocated to the operating budget for operational related expenditure. The funding was stopped in line with Section 16(3) (a)(i) of the DoRA 2010 due to non compliance of planned expenditure in terms of the Public Transport Strategy as required by the DoRA framework. Concerns raised relate to the viability and appropriateness of the proposed infrastructure investments for the Mabopane BRT line. It was proposed that the City meets with DoT and NT to consider ways to improve the first phase of the planned BRT services.

- Neighbourhood Development Partnership Grant (NDPG)

The NDPG has also been reduced from R28 021 000 to R10 000 000 based on the outcome of the assessment undertaken. No funding has been drawn as per original payment schedule therefore the inability to utilize the original published allocation for the 2010/11 financial year. In terms of Section 16(1) of the DoRA 2010, the national transferring officer (National Treasury) withhold the capital grant transfer due to significant under-spending against the payment schedule/and or pending the completion of the business plan. This will be reconfirmed with the promulgation of the adjusted Gazette to be issued in December 2010 taking into account that this action relates to the first quarter of the current financial year.

- National Electricity Grant

The electricity for all project was reduced with an amount of R10,0 million which is funded by DoE owing to under-spending of the grant allocation. This is in line with Sections 17 of the DoRA and 38 of the MFMA (Act 56 of 2003). Formal notification has been received from National Treasury in this regard. According to the strategic unit/department this funding has been deferred to the 2011/12 financial year.

- Expanded Public Works Programme

The allocated funding of R8 357 000 for the EPWP was also removed. This is a conditional grant of which allocations are based on the reporting of job opportunities created by the city in terms of labour intensive initiatives on the capital works programme. The original allocations were not in line with departmental reporting and some strategic units/departments were not taken into account. To date no funding was received in terms of the EPWP therefore this revenue will be accounted for when it is recognised and allocated in terms of performance by each strategic unit/department. A special resolution will have to be considered taking into account that the National Department of Public Works cannot confirm how much will be allocated in advance.

The 2010/11 Adjusted Capital Budget per strategic unit/department is aligned to the goals of the Integrated Development Plan of the municipality, and amounts to R2 424,3 million compared to the approved 2010/11 Capital budget amounting to R3 195,0 million. The reduction of R770,7 million can mainly be attributed to a decrease in grant funding.

The following adjustments were affected with regards to capital grants and subsidies (nett change of R760,1 million):

- National Electrification Programme. The electricity for all project which is funded by DoE was decreased with R10,0 million to R78,0 million. Funding has been deferred to the 2011/12 financial year;
- Expanded Public Works Programme (EPWP). The allocated funding of R8 357 000 for the EPWP was removed; and
- The Government Housing Programme was increased with R1,2 million.

A number of transfers between capital projects were processed to be in line with the ASD structure. R75,6 million was transferred from the Roads and Stormwater Division to the Transport Division in order to fund capital expenditure at the Wonderboom Airport.

Although requests for additional funding to the amount of R674,7 million were received, the requests could not be accommodated and therefore need to be reprioritised within the allocated adjustments budget and/or be considered during the 2011/12 MTREF process. However, R3,0 million was allocated for the upgrading of the Sammy Marks Council Chamber.
